講義題目 授業の目標概要		Japanese Literature after 1945 After the collapse of the Japanese Empire in 1945, the empire’s former domains came under occupation by Allied Forces. Several reformations took place to transform the region from an empire to a nation-state. However, the legacies of Japanese imperialism remained throughout “Japan’s long post-war.” In this course, we will read works of the postwar Japanese literature as windows to survey significant and controversial issues in Japan such as gender equality, nuclear disaster, economic disparity, and minority problems. We will also examine texts in detail to consider how each text critically approaches social issues.
